What in the World
2013
05:30, digital HD video
b&w / sound

Found footage from the quiz show "What in the World" (1950), a co-production by CBS and Penn University museum, in which the participants tried to identify the museum's archaeological objects. In this found footage the panelists are the museum director Froelich Rainey, moderator; the archaeologist Alfred Kidder, the sculptor Jacques Lipchitz, and the historian of Islamic art Richard Ettinghausen – one of the main founders of the collection of the Museum for Islamic Art in Jerusalem.

Fragment of carpet	Ca 17-78	78-6676
Material:	**Provenance:**	**Period:**
Cotton velvet & wool	India	17th century
Measurements: H. W. 1.52 L. 2.72 Diam.	**Condition:** Rubbed off but generally not in bad condition	**Date of entry:** May 1978

Description:

Fragment of a carpet woven in unusual half-arch shape. Round carpets were made in India in the 17th century, probably in the workshops of Lahore, and show a radial design of flowering shrubs whose naturalistic style is characteristic of Indian carpets of this period.

This carpet may have been arranged on the floor around a dais, a throne or even a fountain of hexagonal or octagonal shape. This particular shape ofcarpet could not have been made for export, but rather for domestic

Incense burner	M 63-69	69-580 #453	
Material: Bronze	**Provenance:** Syria	**Period:** 14th century	
Measurements: H. W. L. Diam.max. 13.4cm.	**Condition:** Very good	**Date of entry:** June 1969	

Description: Globe-shaped incense burner, composed of two fitting parts, which enclose in the centre a charcoal pan suspended on two circular loops, to ensure permanent horizontal orientation of the charcoal unit. The outside is silver inlay, set against a bitumen background. Fine holes are set around the interstices of the design, which consists of a large star design surrounded by a frame of braided units and a band of richly interlaced pseudo Kufic, interrupted by roundels filled with arabesques.
